| TITLE | Gas Leakage Monitoring and Alerting System for Industries |

DESIGN A WEB APPLICATION USING NODE RED SERVICE:

To design an Web Application using Node-Red.

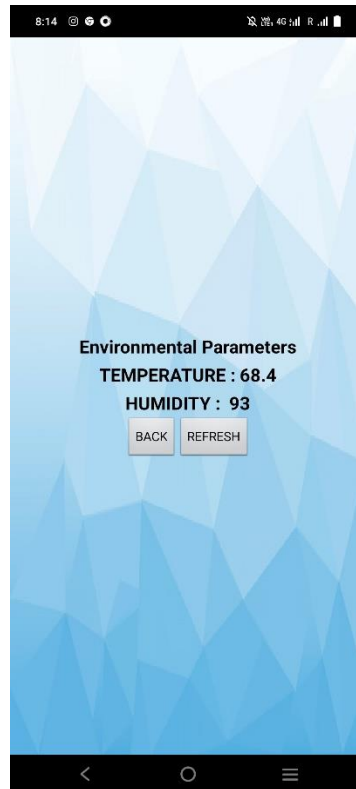

Website link: <https://node-red-vtv-2022-11-12.au-syd.mybluemix.net/sensor>

```
{"temp":68.4,"humid":93}
```

Here, a mobile application is linked with Node Red.

From Node Red, data comes to Mobile App.

As you see in the figure below, URL of Web is set to the website link of the Node-Red.
